Tips for a final report

Updated September 2018

Objectives

What were your objectives when you wrote your application?

Did you meet your objectives? If so, how? If not, why?

Did you get the results you were expecting? If so, what are they? If not, why?

Costs of the project

How much was your project supposed to cost?

What are the real costs of your project? Please explain the difference, if any.

Time frame of the project

As per your application, what were the dates of start and completion of your project?

In reality, when did you start and finish the project you applied for?

Permits

Did you get all the required permits? If not, why?

Please include a copy of your permit (s) in your final report.

Promotion

What have you done to promote the NB Wildlife Trust Fund contribution to your project?

Please attach copy of any publication and pictures

Conclusion

Will your project have the socio-economic and environmental impacts you were planning?

Did unexpected impacts arise through conducting this project?

Any specific experience that may help other groups doing similar project? Is there something you should have done differently?

Any decision taken following the results of your project?

Attachments

Please attach a copy of all your research documents

Please include any pertinent information not requested above
